

Electric Eye

BAND STORY

"Electric Eye is an old school heavy metal tribute to the bands they love. Playing covers from some of the greats like Anthrax and White Zombie while taking it back to the bands that have been a major influence on the rock landscape for years such as Iron Maiden, Black Sabbath and Judas Priest from which they have taken their name. Founded by long time friends Carl Gustavson (Bass) and Rob Peterson (Guitar) it wasn't long before they added Paul Riley's furious and precise guitar work to the mix, along with Dave Cooper and his tight thundering drums. After working with several vocalists they stumbled across the electrifying and unique voice of Jodie Funk and the band was complete. With an abundance of love for the music they cover, Electric Eye keeps the songs sounding as much like the original artists as possible and are ready to make their mark on the music scene. "
