## BAND STORY

"

Music has been part of my life from day one. Listening to my mothers old jazz and ska records as a toddler. As I got older I moved on to all kinds of music such as reggae (lovers/roots and culture) soul, pop, before becoming heavily addicted to underground hip-hop. Now my music tastes have come full circle, listening to whatever sounds good. Rock, gospel, classical, easy listening, even music on computer games, it does not matter. My musical tastes knows no boundaries.
