## BAND STORY

"

I've been a professional musician since I was 15, I've run recording studios, produced various bands, wrote and recorded my own albums. I've played in all types of musical genres. I'm now working in my main love which Trance / Techno music. My album "I Want A Million Dollars" is just finished and will be released very soon (hopefully) and I'm now working on a new more Trance based album. I also have 2 Xmas tunes that I have done for the Xmas season.
