## BAND STORY

"

Randy Bogacz' s " Dangerous" screams the best of the 90' s hair bands, and that' s a good thing. Look no further than the liner notes thanking Ratt to see the source of influence. The rich driving power six string chords in the title track, " Dangerous", and the disc' s best song, " Fall to Darkness, give big nods to the sounds of bands like Great White. The inflection of this new voice in music is reminiscent of all the guitar firepower of an electric era in music.
