

Shief

BAND STORY

"

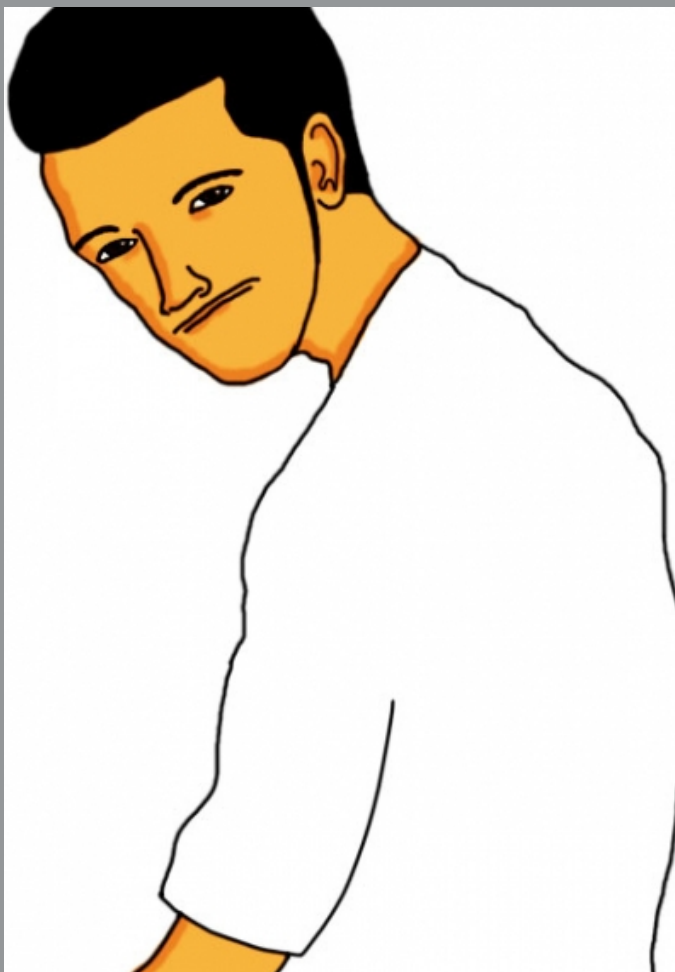

Shief has **5** solo CD's all mixed, mastered and produced by himself. **3** albums and **2** mixtapes. Since his first album, 'Paint a Picture', Shief has consistently been working on achieving a sound that is not stereotyped as everyday Hip-Hop. It is evident that Shief has achieved this by receiving the following feedback: "I like that you aint like every other rapper" and "I'm definitely feelin' your original style and presentation". Shief is often regarded to as being lyrical when it comes to political. The song entitled 'Say bye bye' from the album 'Just In Time' clearly shows that Shief can speak on the behalf of how millions feel about politics.

"Beats nice. Nice opening. Lil loud, that's prolly my speakers though. "Can't fix wit glue". Haha, sick. Gettin on Bush though. Feel u. Nice track!!" - **feedback from a fan about 'Say bye bye'**

Shief has worked with a wide range of people from **Hommy Hom** who's featured in **8 Mile** to **Trek Life** who has been on the Wake Up Show with Sway & King Tech. Shief is currently working with **Nikola Rachelle**, the younger sister of Daniel and Natasha Bedingfield, along with other musicians such as **Tia Jean** who have song written for **Beyonce Knowles**.

"If you're a fan then you know that there's more to come. If you're a hater you prolly think I quit already."
