

## Softfocus

### BAND STORY

"

Hi how are you?

I am a solo artist living in England & i have just finished my debut album as Softfocus.

After being in quite a few bands i decided to record this album myself & what with one thing & another it took me over a year!

Anyway its done now & available from C.D Baby, there are 8 tracks on it, 6 of wich are rock with a couple of acoustic numbers to balance it out.

I hope someone out there likes it!

Cheers & thanx for looking.
